Helping to save lives through blood donation is as much a part of summer as baseball, hot dogs and apple pie.

And while the summer months can bring family and friends together to celebrate America's independence, it can also be a time to commend the national spirit of America's blood donors.

Every day, people from coast-to-coast independently step forward to help others in need by donating blood. But donations often slump in the summer as donors become busy with seasonal activities and overlook donating blood

So while the need for blood doesn't go away during the summer, blood donors sometimes do. The American Red Cross is asking all eligible donors to make donating blood part of what they do this summer.

Make it a
save-a-life summer.
Please give blood.

**American
Red Cross**

The need is constant.
The gratification is instant.
Give blood.™

Amanda Druckenmiller, soon to be Junior at Canton High School, is coordinating a blood drive as part of the Red Cross Summer Scholarship Program and needs your help!

We're asking everyone to please encourage others to make an appointment to give blood at Amanda's blood drive.
You can change a life this summer!
